

Covestro

AT A GLANCE

Who we are

Covestro is a global leader in developing high-tech materials that make the world a brighter place. Our innovative solutions help make cars lighter and more fuel efficient, mattresses more comfortable, electronics better protected and homes better insulated – all while driving toward a more circular economy. Our vision? To become fully circular.

Our products

Did you know? You're never more than six feet away from a Covestro product!

We produce materials that are transformed into products you use and see every day – from the adhesives holding your shoes together to the plastic casing that protects your laptop! Our diverse product portfolio spans nearly every industry, including automotive, construction, electronics, furniture, healthcare and sports.

Covestro

NEWARK

Our local presence

Covestro first established operations in Newark, Ohio, in 1979 with 20 employees and two extrusion lines. It is now the premier polycarbonate compounding facility in North America, and one of six Color Competence and Design Centers globally. Today, our Newark facility produces polycarbonate and polycarbonate blends, as well as offering technical expertise in color matching and design. These materials enhance every day products across diverse industries, including automotive, electronics and healthcare.

Giving back to our communities

Our passionate employees have countless opportunities to take their talents to the communities where we live, work and play, by helping non-profits solve business challenges, raising funds for a good cause, sharing our excitement for science with the next generation, and inspiring a cleaner future.

◀ Joining forces with United Way of Licking County to strengthen our community

▶ Bringing hands-on science learning to the next generation

◀ Introducing students to manufacturing
